Ethos and Values at St Saviours.

The ethos of our school is seen in the values we want to be displayed through every class.

These are through Love, Peace, Respect and Hope, which are displayed round school and children are reminded of when working and playing in it.

The chosen values are seen on our church clock tower display in the hall. They are also displayed in every classroom and have been a focal point of a hall display, for some time. This is changed termly.

Our School Vision Tree shows what we want our children to become, with our values as the roots we are growing from. This Vision Tree was designed by all the stakeholders in the school, children, teachers, parents and governors.

We will continue look at these values and the way they impact on our ethos and change if we feel it needs to do.
